

5 SIGNS YOU MIGHT BE PREGNANT

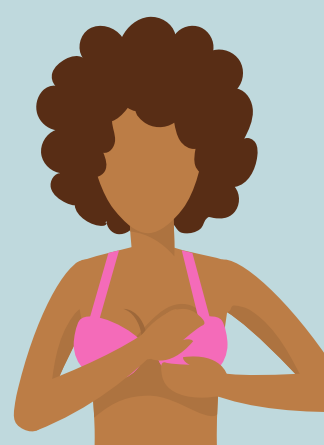

A missed period.

This is a common sign of early pregnancy. If it has been more than a week since you expected your period, you might be pregnant.

Swollen and tender breasts.

This is due to hormonal changes.

Nausea and vomiting.

This is commonly known as morning sickness, but it can occur at any time of day.

Frequent urination.

This is due to an increase in the amount of fluid in your body.

Fatigue. If you are sleepier than usual, it could be a sign of pregnancy.

These are all common symptoms of early pregnancy, but they are not 100% identifiers.

THE BEST WAY TO KNOW IF YOU ARE PREGNANT IS TO TAKE A PREGNANCY TEST.
